

Quick Reference: FACT SHEET 2017 – 2018 School Year

At Greenwood School we have a deep commitment to quality preschool education and day care. We feel an outstanding preschool should provide a warm, loving atmosphere where all children can grow intellectually, socially, physically and emotionally. Each class is taught in a positive and non-threatening manner which allows for stimulation and growth. Children are treated with respect and consideration, creating an environment where they feel valued and can learn that the feelings and ideas of others are important.

Greenwood believes each day of a child's life is full of curiosity and learning and that parents and teachers play a vital role in supporting these learning experiences. By working together, parents and teachers can help children develop into healthy, intelligent and competent human beings.

Our faculty also believes that children learn best through first hand experiences, structured and unstructured play activities, and involvement with their peers. Teachers take great care to create an environment that is conducive to learning in this manner.

*In accordance with Maryland State Law, Greenwood School does not discriminate based upon race, religion, gender, sexual orientation, disability or age in the admission of pupils or the employment of faculty and administrative staff.
