

GREENWOOD SCHOOL FACT SHEET - 2017

At Greenwood School we have a deep commitment to quality preschool education and day care. We feel an outstanding preschool should provide a warm, loving atmosphere where a child can grow intellectually, socially, physically and emotionally. We want each class to be taught in a positive and non-threatening manner, which allows for stimulation and growth. We feel children should be treated with respect and, in turn, they will value the feelings and ideas of others.

Greenwood believes each day of a child's life is full of curiosity and learning. Parents and teachers play an important role in responding to and supporting learning experiences. By working together, we can help our children develop into healthy, intelligent human beings.

Our faculty strongly believes that children learn through first hand experiences, structured and unstructured play activities, and involvement with their peers. The Greenwood staff help create an environment that is conducive to learning in this manner.
